05

Operational Insights

Avg order size of 2.28 items signals upsell opportunity. With 5,370 total orders in Q1, targeting weekends and breakfast hours could unlock more revenue.

STRATEGIC RECOMMENDATIONS

Drive Breakfast Traffic

Breakfast orders near-zero. Targeted morning promotions and combo deals can significantly expand revenue.

Weekend Activation

Weekend revenue 44% lower per day. Events, deals, and family bundles could close this gap.

Upsell Strategy

Only 2.28 items/order on average. Bundled meal deals can increase basket size and per-order revenue.

Leverage Top Items

Feature Meatball Marinara & Big Mac in promotions — they are high revenue and highly ordered.

Afternoon Opportunity

The 3–6pm window shows moderate orders. Happy hour deals can convert this slow period.
